

## English

The children will continue to develop their abilities to listen, speak, read and write for a wide range of purposes.

The children will research information based on *Celebrations* and will cover topics such as:

- Black History
- Bonfire Night
- Thanks Giving

## Albatross Treetops

**Autumn Term 2 2018**

### Topic:

Our Wonderful World

Miss Lea

Miss Prior

Ms Kern

## Mathematics

The children will develop their knowledge and mathematical skills, covering;

- Calculation
- Measuring Time
- Measuring Weight
- Shape

## Other Curriculum Subjects

In science, we are learning about *Sound*. The children will be exploring the concept of sound and how sound is made. They will experiment with how sound travels and investigate way sound can be absorbed.

In humanities, the children will be learning about *Celebrations And Festivals From Around The World*. The children will study the continents and oceans of the world and explore the features of different countries.

The children will also be taking part in social skills sessions to develop their understanding and awareness of the world around us.

Every week, the children will receive homework in a purple homework folder with a spelling exercise and a piece of maths, which may be a simple practical activity at home.
