

Phonics

Children will continue to:

- Revision of Phase 1, 2 and 3 sounds
- Revision of the sound families e.g. igh, ie and i-e
- Practise word blending for reading.
- Practise reading and writing words with tricky spellings.
- Write compositions using picture prompt to apply their different phonic sounds

Science

Investigating the properties of materials

Children will be continuing to investigate and describe the properties of materials. In this topic the children will be investigating the absorbency of different materials, the properties of ice and exploring how the seasons change.

Maths

Children will be learning about:

- Crossing ten when adding and subtracting
- Place value with numbers to fifty (multiples of 2s, 5s and 10s to be included).
- Measurement: length and height.
- Measurement: weight and volume
- Multiplication and division

English

This term the children will be continuing with their core text 'Major Glad, Major Dizzy'. By the end of this term, the children will have planned and re-written 'Major Glad, Major Dizzy' and published it to create their own book to take home.

In SPAG, we will be continuing to practise writing correctly punctuated sentences using capital letters in the correct places, full stops, exclamation marks and question marks. They will also practise writing sentences

to include the conjunction 'and' when joining two ideas together. The children will also learn how to apply the suffixes: -s, -es, -ed, -er, -ing, -est to different root words and understand the relevant spelling rules.

YEAR 1

The Victorians

History

Life as a Victorian

In this topic the children will be learning about life in the Victorian era. We will be looking at different aspects of children's lives in the past and how they differ from life today. The children will explore and research different inventions and consider why this era was important in the development of inventions.

DT
Flying Machine

This term the children will be continuing to look at how 'flying machines' have changed. They will be looking at different types of 'flying machines' (aeroplanes, hot air balloons, paragliding, helicopters) and the materials that are used in constructing them and how they are built. The children will then have the opportunity to design, create, test and evaluate their own flying machine.

PSHE

Living in the wider world

We will be considering why class rules are important and to understand that people have rights and learn how to respect each other's rights. We will look at groups and communities that we belong to and understand that everyone is unique. We will identify the special people who work in the community and learn about their roles.

YEAR 1

The Victorians

Computing
We are Painters!

The children will be looking at using the computer to create their own cartoon character.

R.E

In RE we will looking at what makes a person special and learning about different religious leaders. The children will reflect upon the qualities of a good leader.
